GERMANY

SHORTAGE OF ENGINEERS

- **Germany lacks nearly 340,000 specialists in engineering.**
- **According to reports Germany's shortage of skilled workers for so-called STEM jobs – covering science, technology, engineering and mathematics is around 338,000.**

- **IW (Institute of German Economy) in its research published recently mentioned that 440000 skilled employees are missing in Germany across all fields, and this could cost Germany 30 billion Euro in industrial output.**
- **In a survey conducted recently, three out of five German companies fear that they will not find enough engineers and IT-specialists in the future.**

Association of Electrical Engineering, Electronics and Information Technology (VDE) in its Tec Report 2018, published on the occasion of Hannover Trade Fair, announced that the industry is looking at a skills shortage for many years to come.
